Course Overview

The **Mining and Environmental Protection Law** course offered by **Magna Skills** equips professionals with a practical and legal understanding of mining operations in relation to environmental sustainability. As environmental concerns rise and the demand for mineral resources grows, this course addresses the need for a balanced approach to mining and legal compliance.

Participants will gain in-depth knowledge of legal instruments, regulatory obligations, Environmental Impact Assessments (EIAs), licensing procedures, and international standards. Delivered by industry and legal experts, this course is ideal for mining executives, legal practitioners, compliance officers, environmental consultants, and government officials working in the natural resources or environmental sectors.

Course Outcomes

- By the end of this course, participants will be able to:

  1. Interpret and apply key legal principles governing mining and environmental protection.
  2. Identify and comply with national and international mining regulations.
  3.

Evaluate the legal requirements for Environmental Impact Assessments (EIAs) and audits.

4. Navigate the licensing and permitting processes for mining operations.

5. Promote legally sound and environmentally responsible mining practices.
