Course Overview

Inventories can reach many millions of dollars. You need a good warehouse to store, keep and protect all those millions of dollars. In this course, we will discuss the best and the latest methods to store and protect high value inventories. We will also discuss the best characteristics of a modern warehouse. Knowing what you have and how much you have are the keys to proper warehousing management. We will explore the various methods to achieve record accuracy and successful cycle counting. A scientific method of auditing the warehouse will be applied.

Best-practice warehouses deliver superior customer satisfaction and return on investment by functioning as a tightly-integrated part of a company’s value chain. The purpose of this course is to show how to implement all of the essential tools for the effective management of warehouses and stores. This training course includes how to evaluate procedures and how to improve methods by eliminating wasteful activities and excess costs.
