## Course Overview

Having the technical skills and knowledge to successfully execute your job duties is only one part of being the best you can be in the workplace. In addition to these “hard” skills, we also need “soft” skills. Soft skills are those skills which allow us to effectively work with others. No matter what your position, organization, or industry, you work with people! Taking the time to build effective soft skills can contribute to a more efficient, more harmonious, and more productive workplace, as well as to your own overall job happiness and satisfaction.

## Course Outcomes

Research has consistently demonstrated that when clear goals are associated with learning, it occurs more easily and rapidly. With that in mind, let’s review our goals for today.

**At the end of this workshop, participants should be able to:**

- Discuss how soft skills are important to success in the workplace
- Understand the 10 key soft skills everyone should have
- Use soft skills to relate more effectively to others in the workplace
- Understand how to use soft skills to communicate, problem-solve, and resolve conflict
