## Course Overview

You are in your office looking over your performance report and it happened again. Your low performing employee failed to meet quota this month even after you spoke with them about the importance of meeting goals. This employee has a great attitude and you know they can do better. You just do not know how to motivate them to reach the goal. Money used to work, but that has worn off. You are baffled and you know being frustrated makes matters worse. What do you do?

This workshop focuses on how to better coach your employees to a higher performance. Coaching is a process of relationship building and setting goals. How well you coach relates directly to how well you are able to foster a great working relationship with your employees through understanding them and strategic goal setting.

An easy-to-understand coaching model taught in this workshop will guide you through the coaching process. Prepare yourself to change a few things about yourself in order to coach your employees to better a performance.
