Course Overview

Welcome to the SharePoint Designer 2010 Essentials workshop. You can use SharePoint Designer 2010 to design, build, and customize Web sites running on SharePoint Foundation 2010 and Microsoft SharePoint Server 2010.

In this workshop, you'll learn how to create data-rich Web pages, build powerful workflow-enabled solutions, and design the look and feel of your site.

Course Outcomes

Research has consistently demonstrated that when clear goals are associated with learning, it occurs more easily and rapidly.

By the end of this workshop, you should be able to:

- Open and Close SharePoint Designer 2010
- Understand the interface
- Use the Backstage View
- Open a Site using the open command or the Recent List
- Create a new blank web site
- Create a site from a template
- Save sites
- Close a site
- Understand the Tabs that appear based on your task
- Understand the Summary Pages that appear based on your task
- Add users or groups to your site and change site permissions
- Edit or delete a site
- Work with lists and libraries
- Create a new list or library
- Work with columns in lists and libraries
- Work with Site pages
- Work with version history
- Use content types
- Use Master Pages and content placeholders
- Work with content types
- Create a data view
- Add or remove columns from a data view
- Create a data form
- Edit a list form
- Customize data views and forms
- Understand workflows
- Copy and modify a workflow
- Work with data sources
- Add a linked data source
- Copy and modify a data source
- Understand templates
- Save a site as a template

Activate a site template in the Solution Gallery
