Course Overview

Finance departments are increasingly expected to produce accurate reports, forecast trends, monitor budgets and detect risks quickly. AI can support financial professionals by improving analysis, reporting, forecasting and decision-making.

This Magna Skills course focuses on practical AI applications in finance, accounting, budgeting, donor financial management and public finance operations. Participants will learn how AI can support financial summaries, variance analysis, budget preparation, report writing and fraud risk awareness.

The programme does not replace professional accounting judgment. Instead, it equips finance teams with tools to work more efficiently, identify issues earlier and communicate financial information more clearly to management and stakeholders.

Course Outcomes

Course Outcomes

1. Apply AI tools to improve budgeting, forecasting, analysis and financial reporting.
2. Use AI to summarize financial information, explain variances and prepare management reports.
3. Identify financial risks, anomalies, compliance gaps and internal control weaknesses.
4. Improve donor reporting, grant compliance and financial documentation processes.
5. Develop practical AI-supported workflows for finance, accounting and budget teams.

Course Outline / Curriculum

Course Outline

Module 1: AI in accounting and financial management

- Key concepts, practical examples and sector-based discussion.
- Workplace application activity, templates and implementation considerations.

Module 2: AI for budgeting and budget narratives

- Key concepts, practical examples and sector-based discussion.
- Workplace application activity, templates and implementation considerations.

Module 3: Financial analysis, variance explanation and summaries

- Key concepts, practical examples and sector-based discussion.
- Workplace application activity, templates and implementation considerations.

Module 4: AI for forecasting and scenario planning

- Key concepts, practical examples and sector-based discussion.
- Workplace application activity, templates and implementation considerations.

Module 5: Donor financial reporting and grant compliance

- Key concepts, practical examples and sector-based discussion.
- Workplace application activity, templates and implementation considerations.

Module 6: Fraud indicators, anomalies and internal controls

- Key concepts, practical examples and sector-based discussion.
- Workplace application activity, templates and implementation considerations.

Module 7: AI for audit preparation and documentation
