## Course Overview

Governments and public institutions are under pressure to deliver faster, more transparent and more citizen-focused services. AI can help improve administrative efficiency, policy implementation, communication, records management and digital service delivery.

This Magna Skills course is designed for public sector professionals seeking to understand how AI can support digital government, smart administration and improved public service outcomes.

Participants will explore practical use cases such as citizen communication, automated support, policy analysis, document processing, service performance monitoring and responsible AI governance in the public sector.

## Course Outcomes

---

### Course Outcomes

1. Understand how AI can improve public administration and digital government services.
2. Apply AI tools to strengthen citizen communication, records management and reporting.
3. Use AI-supported insights for policy analysis, planning and performance monitoring.
4. Improve administrative productivity, service delivery and institutional responsiveness.
5. Promote ethical, transparent and accountable AI adoption in public institutions.

# Course Outline / Curriculum

---
